EDUCATION

BS Computer Sciences
COMSATS University Lahore

09/2018 - 07/2022   *Lahore, Pakistan*

EXPERIENCE

FINAL YEAR PROJECT, A FITNESS WEB APP (09/2021 - 07/2022)
- Used **MERN** Stack.
- Created the frontend using **React JS** .
- Aimed to help people regain their health and fitness goals after the pandemic struck.
- Facilitated local people with the option to track food calories, burnt calories, find and buy nearby gym memberships, find trainers, buy activity plans and much more.

FREELANCE PROJECT, RIGFISH INSTRUMENTS WEBSITE (12/2021 - 01/2022)
- Worked on frontend as a **React JS** developer.
- Helped them redesign the website to the new UI design.
- Created and implemented search functionalities and filters for them. Also helped them communicate with the backend through APIs.
- Helped guitar players to create gear chains. It helped with adding multiple guitars, amps and pedals to the chains.

FREELANCE PROJECT, CUSTOMIZABLE CARD WEBSITE (10/2021 - 12/2021)
- Worked on frontend as a **React JS** developer.
- Implemented user register and authentication with **Node JS.**
- Provided the functionality of user being able to upload pictures and customize a card to their will.

SEMESTER PROJECT, ACOTAR BOOK FANDOM WEBSITE (07/2021 - 09/2021)
- Used **MERN** Stack.
- Based on fandom website of my favorite book series.
- Listed information about the books in the series, characters, locations, synopsis and summary.

PERSONAL PORTFOLIO WEBSITE
- Created personal portfolio website with **React JS.**
- Listed my skills, motivation, projects and contact info.
- Download CV and email me through website.
